Rewrite the sentence below, using the passive voice.

Charles Darwin embarked on a historic voyage aboard the HMS Beagle.

Did You Know?

Charles Darwin was a pioneering naturalist, who was best known for his groundbreaking theory of evolution. His work revolutionised biology by explaining how species adapt and change over time. Darwin's insights have profoundly influenced our understanding of the incredible diversity of life on Earth.

Number Challenge

On a trip to the Galapagos, Darwin recorded the beak sizes of some finches:

- 6 finches had beak sizes of 48 mm
- 9 finches had beak sizes of 90 mm
- 8 finches had beak sizes of 114 mm

What was the mean average beak size of Darwin's finches?

Critical Thinking

What might a human look like a million years from now?
