Copy the following sentence, adding a parenthesis.

During the heatwave, there was widespread concern over health risks and water shortages.

Note: A Parenthesis is a pair of brackets, dashes, or commas, which are used to add extra information to a sentence or paragraph.

Did You Know?

Summer is the warmest time of the year, characterised by long, sunny days and rising temperatures. However, climate change is making summers tougher and hotter, causing dangerous heatwaves that can be troublesome for both humans and animals. These extreme temperatures can lead to droughts, wildfires and a lack of enough water for plants to flourish.
