Rewrite the list sentence below as bullet points. Your bullet points must be introduced by an introductory clause.

The sabre-tooth cat had long canines, a muscular body, thick fur and short powerful limbs.

## Did You Know?

Sabre-tooth cats were amazing hunters during the Ice Age, perfectly adapted to hunt large prey like mammoths. Their long, sharp teeth allowed them to deliver deadly bites. These cats were fierce predators that could take down animals much larger than themselves with ease.
