## Grammar Challenge

Click text to edit 

Construct a sentence about a long-tailed macaque that includes the following words:

- precision
- cracked
- oyster

Monday

## Did You Know?

The long-tailed macaque is an incredibly resourceful primate, which knows exactly how to have a shellfish buffet on the beach. Using a variety of rock-smashing techniques, it is able to remove a shellfish from its hard outer casing.

## Number Challenge

A young male macaque only managed to smash open 3 out of every four shells found.

If he found 64 shells, how many of these did the macaque manage to open?

## Critical Thinking

“A person who never made a mistake, never tried anything new.”

Do you agree with Albert Einstein's famous statement? Why? Why not?
