Write a sentence about a tarsier’s impressive eyes that includes a simile.

Example: The tarsier’s eyes were like gleaming marbles, reflecting the secrets of the jungle.

Did You Know?

The extraordinary wide-eyed tarsier possesses remarkable eyesight. With eyes larger than its brain, it excels in night vision, enabling it to spot prey in near-total darkness. This tiny primate’s exceptional vision makes it a formidable and adaptable nocturnal hunter in the dense forests of Southeast Asia, showcasing its undeniable prowess in the wild.

Number Challenge

- The tiny Philippine tarsier can leap a maximum distance that is 40 times its body length.

If a Philippine tarsier leapt a maximum distance of 5.2 metres, what was its body length?

Critical Thinking

Tarsiers are active at night.

How many human jobs/occupations can you list that involve working throughout the night?

Monday

Tuesday
