

Morning Starters: Summer 2 - Teamwork (2)

Word Challenge

List some hyphenated adjectives, which could be used to describe the teams of scientists conducting health checks on polar bears.

Example: well-organised, hard-working, ...

Grammar Challenge

Click text to edit 

Rewrite the following sentence, adding a relative clause:

The scientists discovered that the polar bears were much smaller.

Example: The scientists, who had to work quickly, discovered that the polar bears were much smaller.

Did You Know?

Teams of scientists are working hard to protect polar bears by conducting regular health checks. They have discovered that polar bears are now much smaller than they were ten years ago due to climate change and habitat loss. By collecting data, the teams hope to develop new ways to save these amazing creatures from extinction.

Number Challenge

Polar bears roam across vast areas of up to 600,000 square kilometres.

What could be the possible lengths and widths of this area? List as many different combinations as you can.

Example:

Length: 1,000 km | Width: 600 km

$1,000 \text{ km} \times 600 \text{ km} = 600,000 \text{ km}^2$
