

# Morning Starters: Summer 2 - Urban Animals

## Word Challenge

Write a synonym for each word underlined in the Did You Know? paragraph.

## Did You Know?

Urban foxes have adapted to living in UK towns and cities due to the availability of food, shelter, and fewer predators. They thrive on leftover food, discarded waste and smaller animals like rodents. Urban environments also offer more safety and protection than rural areas.

## Number Challenge

Scarlet, the urban fox, found 7.5 kilograms of food in a single week. 30% of this food came from bins.

## Grammar Challenge

Click text to edit 

Rewrite the sentence below, adding a fronted adverbial.

The red fox rummaged through the bin.

**Example:** In search of food, the red fox rummaged through the bin.

Credit: BBC One - Dogs in the Wild: Meet the Family

**How many kilograms of food did Scarlet find in bins?**

## Critical Thinking

It is always better for animals to adapt to living in cities rather than staying in the wild.

**Do you agree with this statement? Why? Why not?**
