Copy the sentence below, adding the necessary punctuation marks.

Stay hydrated and save the planet
the boy exclaimed taking a sip
from his reusable water bottle

Did You Know?

If everyone in the UK used a reusable water bottle, the plastic saved each year would stretch to the Moon and back! Single-use plastic bottles take hundreds of years to break down and often end up polluting oceans and harming wildlife. Switching to reusable bottles not only protects the planet by reducing waste and pollution but also sets a powerful example for others to follow.

Number Challenge

Fact: Today, people make and use 20 times more plastic than they did 50 years ago.

Make each number in the grid 20 times larger:

8	0.5	400
40	16	4

Critical Thinking

What could you turn a plastic bottle into so that it is given a new life?

Draw or describe your creation.
